Year Six Exhibition

Wednesday, 22 July 2015

CENTRAL IDEA:
This term the students will be working towards their Year Six Exhibition and will determine the Central idea as part of the planning process.

In the final year of the Primary Years Programme, the students participate in a culminating project which is the PYP Exhibition. The Exhibition represents a significant event in the life of a PYP School and student which celebrates the transition of learners from primary to secondary education.

The Exhibition combines the essential elements of the PYP and shares them with the whole school community. The five essential elements are: the acquisition of Knowledge, the development of Conceptual Understandings, Skills, Attitudes and Action.

Concepts, Attitudes and Skills will be explored and practised when students research their chosen issue.

Action
Through the course of the Exhibition students will be encouraged to demonstrate how they can take action as a result of their learning.

Please make note of the Year Six Exhibition in your diary. The Exhibition will be presented to the school students during the day and to the school community immediately after school finishing at 4.30pm.

Year 6 Teachers: Mr Brent Plowright, Mrs Claire Badley, Mrs Donna Appel and Mrs Hanna Le Clerc
